CONTAINERSHIPS INLAND FUEL SURCHARGE (IFS) FOR OCTOBER 2020

Price of the Automotive Gas Oil in the EU countries (http://ec.europa.eu/energy/observatory/oil/bulletin_en.htm) in previous four weeks has been in average € 1,18 per liter. Based on IFS scale for 2020 (on below), IFS will not be surcharged in October.

The IFS do not apply to haulage done in Russia.

The IFS is based on the kilometer distance between the loading and discharging places and the port of loading and port of discharge.

IFS adjustments will be calculated on monthly basis. The IFS is calculated and communicated every month on Containerships webpage based on the Gasoil price fluctuation during the previous month.

The IFS scale for 2020 is as follows:

Automotive Gasoil price per liter	IFS per kilometer	Minimum km distance
€ 1,17 - € 1,20	no surcharge	IFS not applied if pre- and/or on-carriage is less than 50 kms.
€ 1,21 - € 1,24	0,04 €	
€ 1,25 - € 1,28	0,07 €	
€ 1,29 - € 1,32	0,09 €	
€ 1,33 - € 1,36	0,12 €	
€ 1,37 - € 1,40	0,14 €	
€ 1,41 - € 1,44	0,17 €	
€ 1,45 - € 1,48	0,20 €	

The IFS is calculated as follows:

[(one-way km loading place to Port of Loading) + (one-way km from Port of Discharge to unloading place)] X surcharge per km valid at time of shipment]

Would you have any question regarding this surcharge, please do not hesitate to contact your local Containerships commercial counterpart.

The latest IFS and other surcharge updates are published also on Containerships' home page <http://www.containershipsgroup.com/services/terms-conditions/port-tariffs>

Best regards,
Containerships CMA CGM GmbH
